1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/24/2004 has been entered.
2. The following is an examiner's statement of reasons for allowance: There has been considerable disagreement between the examiner and the applicants regarding the term "substantially no stabilizing surfactants". It has been the examiner's position that small amounts of surfactants are used in emulsion polymerization processes. The examiner has conceded to the applicants' arguments (page 2 paragraph 1 of the response dated 5/24/2004). The examiner interprets "substantially free" in this instance to mean virtually no stabilizing surfactants are present and this amount must be lower than the amounts of surfactants used in the prior art (e.g. Diehl et al 6,337,359).
3. In claim 5, the applicants claim that surfactants may be present, but according to claim 1 none of these surfactants can contribute to the stability of the emulsion (i.e. the emulsion must be substantially free of any stabilizing surfactants). It is the examiner's position that any surfactants added must not only be added for a different reason, but the surfactant can not have stabilizing effects as an additional property.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
